SBI Secures CIRP Admission Against Varidhi Cotspin

State Bank of India successfully secured a corporate insolvency resolution process admission against Varidhi Cotspin Private Limited on August 15 2026 for a claimed default of ₹43.39 crore. The Ahmedabad Bench rejected the corporate debtor challenge under Section 60(5) and Section 65 of the Insolvency and Bankruptcy Code while appointing Prawincharan Praful Charan Dwary as interim resolution professional.

THE READ

Creditors should leverage this precedent to dismiss settlement-delay tactics during admission hearings. Financial institutions retain a strong hand when defaults are established despite debtor objections.

Apex Court Pulls Non-Signatory Shareholder Into Arbitration

The Supreme Court on August 5 2026 reversed a Delhi High Court ruling in KKH Finvest Private Limited versus Ashiesh Shukla concerning the acquisition of Sensorise Digital Services. The bench applied the veritable party doctrine following Cox and Kings to bind a non-signatory minority shareholder to arbitration because his separate share purchase agreement was integral to the composite transaction.

THE READ

Deal architects must draft airtight severability clauses to shield minority shareholders from composite dispute mechanisms. Counterparties can successfully pierce formal signatory boundaries if commercial intent proves deep integration.

SEBI Proposes Manager-Led Accreditation With ₹5 Crore Asset Rule

Securities and Exchange Board of India released a regulatory proposal on August 14 2026 introducing a manager-led investor accreditation mechanism alongside a specific securities-assets threshold of ₹5 crore. This consultation aims to streamline compliance pathways for high net worth participants in alternative investment channels.

THE READ

Fund managers should prepare for enhanced compliance onboarding once this consultation transitions into binding regulations. Early alignment with the ₹5 crore threshold will protect institutional fundraising pipelines.

NCLT Delhi Clears Path For Avinya Batteries Amalgamation

The Delhi Bench of the National Company Law Tribunal ordered meetings of stakeholders on August 14 2026 to consider the proposed amalgamation involving Avinya Batteries Limited and PPAP Automotive Limited. The order sets the formal statutory wheels in motion for the corporate restructuring under the Companies Act.

THE READ

Corporate counsel must ensure meticulous notice compliance for stakeholder meetings to avoid post-approval challenges. Procedural hygiene remains the primary defense against dissenting shareholder litigation.

Redcliffe Labs Acquires Megavision Diagnostics For ₹40 Crore

Redcliffe Labs completed the acquisition of Pune-based Megavision Diagnostics Center for approximately ₹40 crore in a private transaction reported on August 15 2026. The deal integrates imaging and pathology assets to scale Redcliffe's omnichannel diagnostic footprint across western India.

THE READ

Acquirers in the healthcare space must secure non-compete covenants tailored to regional diagnostic talent pools. Consolidation strategies depend heavily on seamless operational absorption of acquired clinical infrastructure.

THE THROUGH-LINE

This week highlights aggressive creditor enforcement and expanding judicial reach across corporate and transactional landscapes. From NCLT admission rigour to the Supreme Court binding non-signatories and SEBI refining market access, stakeholders face heightened scrutiny. Strategic foresight and precise structuring remain the ultimate safeguards against escalating regulatory friction.
