ENFORCEMENT · ED

ED freezes ₹510 crore of Anil Ambani group assets

On 3 November 2026 the Enforcement Directorate provisionally attached assets worth ₹510.17 crore of Reliance Anil Ambani Group companies under the Prevention of Money Laundering Act in two bank-fraud cases, a freeze that lapses in 180 days unless the adjudicating authority confirms it. The Reliance Communications case accounts for ₹247.12 crore including two chartered aircraft, six land parcels and a Maharashtra office, while the Reliance Home Finance and Reliance Commercial Finance case accounts for ₹263.05 crore including two Tamil Nadu windmills, bank balances, deposits and receivables.

WHO IS EXPOSED · WHAT TO CHECK

Promoters and group CFOs whose entities hold aircraft, land or receivables funded through a stressed lender are exposed, because the freeze bites before any court has ruled on guilt. Check this week whether any group asset was bought or funded with money that passed through a company now facing a bank-fraud FIR.

INSOLVENCY · NCLT MUMBAI

West Gujarat Expressway enters insolvency on its own petition

On 2 November 2026 NCLT Mumbai admitted West Gujarat Expressway Limited's own Section 10 petition and started the corporate insolvency resolution process over a default of about ₹227.20 crore as of 14 January 2026. The company's FY2024-25 accounts showed assets of ₹85.34 crore against liabilities of ₹319.81 crore, and the bench held that acknowledging the debt in audited accounts kept the lenders' claim alive even though dues had been outstanding since October 2018.

WHO IS EXPOSED · WHAT TO CHECK

Directors who sign audited accounts of a stressed company are exposed, because a debt acknowledged in the balance sheet restarts the limitation clock, the legal time limit for a lender to sue. Check this week what your notes to accounts say about old or disputed borrowings before the board signs the next set.

COMPETITION · CCI

CCI clears Kotak's purchase of Deutsche Bank India retail

On 3 November 2026 the Competition Commission of India approved Kotak Mahindra Bank's acquisition of Deutsche Bank's India retail banking, private banking and wealth management business under a business transfer agreement signed on 30 June 2026. The deal is a slump sale, meaning the whole business moves as one unit, for cash consideration of ₹281.7 crore plus net assets at closing, shifting 16 of Deutsche Bank's 17 Indian branches and about 1,000 employees to Kotak, with the detailed CCI order still awaited.

WHO IS EXPOSED · WHAT TO CHECK

Family offices and NRIs who bank with Deutsche Bank in India, and borrowers on its retail book, face a change of counterparty before closing. Check this week which of your accounts, loans and wealth mandates sit with Deutsche Bank India and whether the paperwork lets them transfer without your fresh consent.

SECURITIES · SEBI

SEBI fines brokers ₹40 lakh over Axis front-running

In an 81-page order reported on 4 November 2026, SEBI adjudicating officer Jai Sebastian fined Woodstock Broking, its director Suresh Kanmal Jajoo, Marfatia Stock Broking and its director Nishil Surendra Marfatia ₹10 lakh each, ₹40 lakh in total, for facilitating front-running of Axis Mutual Fund trades, which means trading ahead of a large order using advance knowledge of it. SEBI found the brokers let their trading terminals run on a computer used by Dubai-based Prijesh Kurani, who was neither an authorised person nor a registered dealer, and gave each entity 45 days to pay.

WHO IS EXPOSED · WHAT TO CHECK

Owners and directors of broking and wealth firms are exposed personally, not only through the company, when an outsider is allowed to operate the firm's terminals. Check this week who physically controls every trading terminal login in your firm and whether each one is a registered authorised person.

DEALMAKING · PRIVATE SECONDARY

Blue Ashva exits iD Fresh via ₹50 crore secondary

YourStory reported on 3 November 2026 that Upsurge India led a secondary transaction of over ₹50 crore in iD Fresh Food, with TG Fund and WW Ventures as co-leads, giving early investor Blue Ashva Capital an exit. About 1% of equity changed hands, the closing date was not disclosed, and the money went to the selling investor rather than into the company.

WHO IS EXPOSED · WHAT TO CHECK

Founders and family offices holding early stakes are exposed to a reference price being set by a trade that brings no new capital into the company. Check this week whether your shareholder agreement gives you a right of first refusal or a tag-along, the right to sell alongside, when another investor sells.

THE THROUGH-LINE

Every item today turns on who controls an asset once a regulator, tribunal or counterparty steps in: a frozen jet, an admitted insolvency, a bank changing hands, a terminal in the wrong hands, a stake quietly sold. The owner who knows exactly what sits in whose name, and under whose signature, is the one who keeps control when the stage changes.

If any of these touches your company or family, message me the number. I will tell you where you stand.
