

INDIAN LAW & DEALMAKING · 31 AUGUST 2026

Five moves shaping the board now.

- › NCLAT reinforces IBC clean slate
- › Bira 91 receives IBC Section 8 demand
- › NIIF achieves ₹19,000 crore first close
- › E2E Networks approves ₹1,500 crore capital raise
- › Fresh startup financings for YOGa Clean Air and DocPharma

SWIPE →

NCLAT upholds IBC clean slate

On 30 August 2026, the NCLAT dismissed Titus Babu v. Sintex Industries Ltd. regarding an approximate ₹110 crore claim over cancelled shares. The tribunal held that former shareholders cannot use Companies Act remedies to revive rights extinguished by a resolution plan.

THE READ

The ruling robustly protects resolution applicants by confirming that approved IBC plans wipe the slate clean against equity claims. Former shareholders must accept extinguishment and cannot bypass statutory priority rules.

Bira 91 faces Section 8 demand

On 30 August 2026, Hindusthan National Glass served an IBC Section 8 demand notice on B9 Beverages for an unpaid operational debt of ₹11.77 crore. The dispute arises from custom glass bottles ordered in 2024 that were allegedly neither lifted nor paid for.

THE READ

This notice creates immediate pressure for a consumer brand undergoing restructuring with substantial debt. Management must settle or demonstrate a pre-existing dispute within ten days to avert an insolvency petition.

NIIF raises ₹19,000 crore first close

On 31 August 2026, the National Investment and Infrastructure Fund announced the ₹19,000 crore first close of its Infrastructure Fund II against a ₹30,000 crore target. The fund is anchored by the Government of India alongside sovereign wealth funds and institutional investors.

THE READ

This massive domestic capital pool significantly expands dry powder for Indian infrastructure equity transactions. It signals robust long term institutional appetite for large scale platform investments despite global macroeconomic headwinds.

E2E Networks approves ₹1,500 crore raise

On 31 August 2026, E2E Networks announced a board-approved plan to raise up to ₹1,500 crore via capital markets and secured a binding term sheet for a ₹1,000 crore GPU-cloud contract. The contract involves supplying NVIDIA Blackwell cloud GPUs to a sovereign AI enterprise through June 2029.

THE READ

The dual move pairs substantial equity financing with a high value multi-year AI compute commitment. It positions the listed company to scale aggressively in specialized cloud infrastructure if definitive agreements are executed.

YOGa Clean Air and DocPharma secure funding

On 31 August 2026, YOGa Clean Air raised ₹20 crore led by Info Edge Ventures, while DocPharma raised \$2 million in a pre-Series A round led by Equentis. DocPharma plans to deploy the capital to build 100 compliant dark stores for healthcare quick commerce.

THE READ

These transactions highlight targeted venture investments in specialized climate tech and regulated healthcare logistics. Investors continue to back asset light supply chain models that solve localized distribution bottlenecks.

THE THROUGH-LINE

Today and legal landscape underscores the absolute supremacy of statutory resolution frameworks over legacy equity claims. Across corporate restructuring and venture capital, financial discipline remains paramount as tribunals enforce strict clean slate principles and operational creditors aggressively pursue unpaid debts. Meanwhile, major capital raises in infrastructure and AI compute demonstrate resilient private investment momentum despite tightening regulatory scrutiny.
