NCLT Bengaluru approves TVS Supply Chain merger

On 30 September 2026, the NCLT Bengaluru Bench sanctioned the scheme of amalgamation merging five group entity subsidiaries including SPC International directly into TVS Supply Chain Solutions Limited. The corporate disclosure detailing the bench approval was published on 1 October 2026.

THE READ

Consolidating subsidiary structures directly into the parent entity eliminates layered corporate overhead and streamlines group balance sheet management. The order reflects the willingness of tribunals to expedite intra-group reorganizations where corporate disclosures demonstrate clear operational synergies.

Madras High Court unlocks SEPC trade receivables

On 30 September 2026, the Madras High Court passed a common settlement order disposing of multiple pending execution petitions involving SEPC Limited. The judicial order lifted interim attachments on 154 crore worth of trade receivables following a 149.5 crore settlement consideration.

THE READ

Securing judicial discharge of attachments through structured settlements immediately restores working capital liquidity for listed engineering contractors. Commercial courts continue to validate party-negotiated resolutions that eliminate execution backlogs and release frozen balance sheet assets.

Supreme Court leaves 800 crore TMC freeze intact

On 1 October 2026, a Supreme Court bench headed by Justice M.M. Sundresh dismissed a petition filed by the Trinamool Congress West Bengal faction seeking interim relief. The ruling declined to unfreeze four debit-frozen public sector bank accounts holding over 800 crore and remitted the procedural challenge back to the High Court.

THE READ

Refusing interim appellate relief in high-value account freezes reinforces strict adherence to forum hierarchy for interlocutory procedural challenges. Parties must establish irreparable harm at the High Court level before expecting apex court intervention in large-scale asset restraint matters.

CCI clears BNP Paribas Cardif IndiaFirst stake buy

On 29 September 2026, the Competition Commission of India approved the equity acquisition involving French insurer BNP Paribas Cardif and IndiaFirst Life Insurance Company Limited. The regulatory clearance permits BNP Paribas Cardif to acquire a 26 percent equity stake in the domestic insurer.

THE READ

Unconditional antitrust approval for foreign strategic investors signals continuing regulatory support for cross-border insurance transactions. Securing a substantial minority position allows global insurance groups to expand domestic market footprint while ensuring compliance with sector ownership limits.

ED Aizawl attaches bank accounts under PMLA

On 30 September 2026, the Enforcement Directorate Aizawl Zonal Office issued a Provisional Attachment Order under PMLA 2002 seizing assets in an organized narcotics trafficking investigation. The order attached 4.76 crore across 22 bank accounts along the Indo-Myanmar border, bringing total secured proceeds of crime to 8.19 crore.

THE READ

Targeting banking channels along border trade routes demonstrates the expanding enforcement reach of zonal units into cross-border financial crime networks. Financial institutions face heightened scrutiny regarding account monitoring in high-risk border geographies as recovery measures accelerate under anti-money laundering statutes.

THE THROUGH-LINE

Across corporate courtrooms and enforcement agencies, legal outcomes this week underscore a strong regulatory preference for strict forum discipline and immediate financial liquidity recovery. Whether through tribunal-sanctioned intra-group mergers or High Court orders releasing commercial attachments, transaction structures and dispute resolutions are moving at an accelerated pace. Meanwhile, regulatory authorities and apex benches are maintaining unyielding standards on systemic compliance, leaving frozen assets and cross-border oversight intact.
